

## REMARKS

This is an allowed case and the Issue Fee Payment has been recorded.

The Office of Patent Publication corrected noted a discrepancy between the specification and the drawings. An amendment has been made to the specification to be consistent with the drawings.

The Brief description of the Drawings, as filed, mistakenly referred to ONLY a Figure 16a and a Figure 16 but correctly referred to the illustration of 7 depicted representations. The Drawings illustrated the 7 depicted representations as Figs. 16a through 16g.

Applicant has amended the specification to be consistent with the drawings and refer to Figs. 16a through 16g.

No new matter is introduced in this amendment. The 7 depicted representations are in both the drawings as filed and also in the specification at Page 29, lines 2 – 12 as filed.

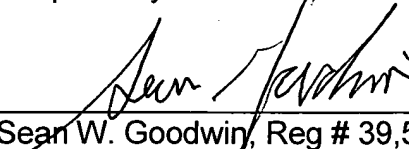

It is believe that the inconsistency has been resolved and that this is a full response to aforementioned USPTO communication.
